School Enumerations

This is a report of unmarried persons between the ages of six and twenty-one whose parents, guardians, heads of families or persons having charge of such child/children who were actual residents of the corporation. Included also were the unmarried persons between the ages of six and twenty-one who were dependent upon themselves. The enumerator listed the full name and gave the exact age and sex of each child. He also secured the signature of either a parent, guardian, head of family or person having charge of said child.

After recording the names and enumeration of the white persons, they began the list of colored persons on a separate page, writing at the head of the column, "Colored Persons".

Excluded from the enumerations were any person residing in the township, town or city for the purpose of attending school, or who were members of a family staying temporarily in the township, town or city, but whose actual residence is elsewhere.

The 1908 enumeration was taken between April 10th and April 30th as required by law and was given to the County Superintendent on or before the first day of May 1909.
